
NIVEL 2

EJERCICIO A. R2

Archivo: r2.cpp r2.java

The **number S is called** the mean of two numbers R1 and R2 if S is equal to $(R1+R2)/2$. Michael's birthday present for Helen was two integers R1 and R2. Helen promptly calculated their mean which also happened to be an integer but then lost R2! Help Helen restore R2.

The Input:

The first and only line of input contains two integers R1 and S, both between -1000 and 1000.

The Output:

Output R2 on a single line.

Input	Output
11 15	19
4 3	2
